

## Notice of Completion For Ohio Building Expansion Project

IWATA BOLT USA, INC. VICE  
PRESIDENT Nobuyuki Hiraga

Thank you very much for your continued support and business.

We are pleased to inform you that the expansion project of the Ohio building has been completed.

We are deeply grateful that this is a gift from all of you.

The Ohio building has the headquarter functions of Iwata Bolt USA, the Ohio factory of the production department, and Ohio sales branch. Under President Trump administration, the impact of the trade war might contribute to a demand increase in North America.

We are planning to expand the production facilities so that we can accommodate these needs.

We look forward to your continued support and business.

Best regards,
