

# INVITATION TO WEB STUDY SESSION

IWATA BOLT Co., Ltd. SOFI Section

Due to the spread of COVID-19, many businesses are facing major obstacles in conducting corporate activities due to travel restrictions. We sincerely hope this pandemic will end soon.

We would like to use this time to host an online "screw study session" for your employees who normally don't have the time and opportunity to learn about "screws". The length of the study session will be about an hour, and we accept participation starting from one person. We have prepared several useful topics such as screw loosening, VA cases, and screw manufacturing, with the intent to solve any problems that you may have.

If you would like to attend our screw study session, please email us your preferred date and time, and any specific topics you are interested in, and we will provide more details.

Please do not hesitate to contact our sales staff for more information.
